

10W Portable Solar Panel Charger – Foldable USB Charger for Camping and Hiking

Product	10W Portable Solar Panel Charger
Model	EZ000007
Power Output	10.5W
Output Voltage	5V / 2.1A (USB)
Efficiency	21.5%–23.5% (PERC solar cells)
Dimensions (Folded)	27.4 x 19 x 2 cm
Compatibility	USB-powered devices (smartphones, tablets, cameras, GPS units, power banks)
Material	Monocrystalline Silicon

Device type	Charging supported	Charging power(max)	Fast charging support
Smartphones (USB-A)	Yes	5V / 2.1A	No
Smartphones (USB-C)	Yes (with adapter)	5V / 2.1A	PD/QC Compatible
Tablets (USB-A)	Yes	5V / 2.1A	No
Tablets (USB-C)	Yes (with adapter)	5V / 2.1A	PD/QC Compatible
Wireless Earbuds	Yes	5V / 2.1A	No
Smartwatches	Yes	5V / 2.1A	No
Cameras (USB-A)	Yes	5V / 2.1A	No
GPS Devices	Yes	5V / 2.1A	No
Power Banks	Yes	5V / 2.1A	PD Compatible
Laptops (USB-C)	No	Not Supported	No

Current generation of 15W solar panel under different sunlight intensities

Product Testing Certification

We are pleased to confirm that this product has been rigorously tested for quality, performance, and reliability. The comprehensive testing process was carried out by **HomeSphere Engineering Team**, a highly experienced team specializing in advanced product evaluation and certification. **HomeSphere Engineering Team** conducted all tests in compliance with industry-leading standards, employing state-of-the-art methodologies and equipment to ensure the product meets and exceeds user expectations. Our thorough approach guarantees optimal functionality, durability, and adherence to technical specifications. This certification reflects our unwavering commitment to delivering high-quality, dependable products.

For any inquiries or further information about the testing process, please do not hesitate to contact the **HomeSphere Engineering Team** at Info@homesphere.ch
